Harris, who has alled the chair of Greek for a score of years or more, tendered his resignation to the board, as did also Dr. H. Wythe Davis, a member of the board. In accordance with a resomition adopted at the meeting of the body Monady evening, the Board of Trustees of the college assembled in the lecture-room of the Second Baptist church yesterday at 12 o'clock, to resume their labors upon investigation as to alleged "specious insinuations" against the personal character of Presuent-elect Boatwright, who had asked that the board hold a meeting and hear any characes that any one might bring against the.

There was quite a large number of the members present, and they held a secret session. Representatives of the daily press were refused admittance, and just what transpired during the meeting could not be learned. It is understood, however, that the meeting was an orderly and good-natured one, and that such harshness of feeling as was developed in the recent stormy session of the bard was satisfactorily adjusted on all sides.

The board was in session about two hours, and at the conclusion of the meeting it was decided that a report be furnished the secular press.

Lioquent speeches in favor of the president-elect were made by several members, and it was then announced be heard, the young president-elect himself being in attendance to confront any accuser. A reasonable length of time was allowed for the appearance of any such persons, after which the following resolution was presented by Judge Barksdale, of Halicax, and unanimously adouted.

Boatwright, president-elect of Richmond College, we cordially reaffirm our confidence in his integrity and personal honor, as well as his fitness for the position to which we have chosen him, and that we piedge to him our most earnest support as president of Richmond College.

Hon. H. R. Pollard submitted the following resolution, which was adopted:
Resolved, that the trustees assure the faculty, the alumni and the public that this change was not made hastily, but deliberately and after a full consideration of the disadvantages of the former system and of the excellent qualifications of the person chosen for the executive officer of the college; that it is the purpose of the trustees to give adequate power to the president, and to hold him responsible for the exercise of that power and the discharge of the duties of his high office; that, in our judgment, it is the duty of all friends of the college to be loyal to the powers that be, and to cooperate cheerfully with the trustees, who are by law the governing body of the institution, in the operation and maintenance of their exclusive right to determine the rules and policy of the control of the college.

AN ACCOMPLISHED SCHOLAR,

AN ACCOMPLISHED SCHOLAR,

Prof. H. H. Harris, who tendered his resignation to the board yesterday, has filled the chair of Greek at the college for many years. He graduated with the Al. A. degree at the University of Virginia, and has travelled extensively abroad for the purpose of study. He was once called to the chair of Greek of floaton University, and also to a similar position in the University of Texas, both of which he declined, though the salaries offered were much larger than that at Hichmond College.

Professor Harris is conceded to be one of the most accomplished Greek scholars in this country. He is a hard student a splendid teacher, and is very popular among the students of the institution. It is not thought that the Board of Trustees will accept his resignation if they can induce him to remain.

There was a night old time out at Richmond College last night. The anti-Boatwright faction of that institution again broke loose, and in every way possible expressed their disapproval of the new president. The mosek funerals that trok place were numerous. The boys buried their bats and balls, their foot-ball and hase-ball uniforms, and other college pharapherualis. Those who are opposed to the new president are very sore over the matter, and have i st no opportunity to show their dissatisfaction.

The hame of Robert E. Lee glows with a glory that coming years but increase, and Virginia cherishes no gentler memory. The capital of the Confederacy is ever proud to do honor to his memory, as it is so linked with his life and achievements that it should pay respect to his anniversary by keeping its proper spirit as a holday, it was to kieamond Lee came to offer his sword to his mother State; it was in Richmond he had his beadquarters after the West Virginia campaignt; it was from Richmond he rode forth to raise the seige of 1881; it was around this city that his feot-sore and weary veterans gathered for the last leng struggle against overwhelming numbers and resources that marked the southern cause as the symbol of unexampled devotion and courage, and it was to Richmond that Lee finally returned after the closing climax of Appomatiox. By an act of the Legislature approved February 23, 1880, the 18th of January, the birthday of General Robert E. Lee was made a legal holiday.

All of the State and municipal offices, the banks and other business houses, as may desire, will be closed in observance of the day. Other than this there will be no further celebration.

THE BOARD OF ALDERMEN AGREES TO APPROPRIATE MONEY.

After a Lively Debate That Body Retracts Its Former Action, But Declines to Agree to Compulsory Vaccination.

The Board of Aldermen held its monthly meeting in the Council chamber last evening and transacted the usual amount of

ing and transacted the usual amount of routine business. By far the largest part of the session was taken up with the discussion of the two measures providing for the establishing of compulsory vaccination. The measures had been defeated at the called meeting of the Board on Friday evening of last week, but the action was reconsidered, at the suggestion of Mr. Ailen.

The following members answered to the roll-cail. Messrs. Turpin (president), Allen, Blake, Boykin, Harowi'ke, Mann, Mitchell, Mountvastle, Noble, Reeve, Snead, Starke, Vaughan and White, Later in the evening Alderman Moore put in an appearance.

appearance.

Annong the measures adopted by the Common Council a week ago, in which the Board concurred, was a resolution which provides when hereafter it becomes necessary to lay new sidewalks on the south side of Broad from Tenth to Adams streets it shall be granolithe.

Upon motion of Mr. Allen, the rules were suspended, and on motion of Mr. Boykin, the vote was reconsidered by which at the last meeting the resolution had been rejected appropriating the sum of \$2,300, or so much thereof as may be necessary, to establish a general vaccination. Captain Reeve expained that the Committee on Health had recommended the measure after due consideration and conference with the Advisory Board. The motion to reconsider was then carried by a vote of 9 to 5, as follows:

Ayes—Messrs, Allen, Boykin, Hardwicke, Reeve, Snead, Starke, Vaughan, White and Turpin—9.

Noes—Messrs, Blake, Mann, Mitchell, Mountcastie and Noble—5.

DB, OPPENBIMER'S VIEWS.

DR. OPPENHIMER'S VIEWS.

Upon motion of Mr. Reeve, Dr. Oppenhimer, president of the Board of Health, was heard, who explained the Stuation, as he had on former occasions. He pointed out that the city had no place where people could be taken to if afflicted by small-pox. The city owned what was called a small-pox nospital, some four miles from its horders, but it was only a rickety shanty, where no patient could be taken to. The money asked for was to be used for the purchase of vaccine points and for the engaging of physicians to undertake the house-to-house visitations. Dr. C. W. P. Brock, of the Advisory Board, was also invited to give his views, and advocated general vaccination, inasmuch as the disease was within twenty miles of the city limits. The Academy of Medicine and Surgery a few nights ago gave it as their opticon that the citizens of Richmond should be vaccinated. Mr. Boykin again led the opposition to the measure, because he did not deem the expenditure necessary. He had not

THE APPROPRIATION EXCESSIVE. Mr. Blake stated that 25,000 vaccine points would cost only \$805, and the vaccination could be executed by physicians at the rate of \$75 a month, and in that manner a good deal of money could be saved. He was perfectly willing that a reasonable amount be spent for the vaccination of those who desired to be inoculated.

Mr. Allen stated that had he been present at the last meeting of the Board he would have voted with the majority against the measures, but since then he had thoroughly considered the matter. If this disease should come here the expenditure of \$2.50 would be a mere bagatelle, and as a representative of the people he was in favor of taking all possible measures of precaution, and would therefore vote for the appropriation.

Mr. Noble said that he would only vote for the measures if he could be assured that the physicians of the poor, as far as in their power, would carry out the vaccination.

nation.

Mr. Starke declared to be in favor of vaccination, but he thought that half of the amount asked for would be sufficient to carry out the work, and he therefore offered as an amendment that only the sum of \$1.250 be appropriated.

HAD NO CONTROL OVER THEM. Dr. Oppenhimer, when questioned by Mr. Beykin, stated that he would have no right to order the physicians of the poor to do the work.

Mr. Blake offered as an amendment that the sam of \$1,000 be appropriated, while Mr. Hardwicke expressed the hope that these amendments would be rejected and

the original amount be appropriated. If this disease should enter the city there would not be a member on this Board who would not to some extent feel the responsibility. It was best to appropriate this amount and leave its expenditure to the wisdom of the Committee on Health. Air. THE APPROPRIATION CONCURRED IN.

On motion of Mr. Starke, the Board immediately reconsidered the vote, and the same gentleman offered as an amendment to make the appropriation \$1,250. Mr. Allen opposed the amendment and urged the Board to concur in the original measure. The amendment was then rejected and the Board finally concurred in the original resolution by a vote of 12 to 3-Messrs. Mitchell, Mounteastle and Noble. On motion of Mr. Blake, the vote was then reconsidered by which at the last meeting of the Board the ordinance was rejected providing for compulsory vaccination. Without any further debate the Board declined to concur in the measure by a vote of 4 to 9.

Dr. Crane, one of the physicians of the foor, was then tendered the privilege of the floor, and stated that the attack made upon them was unfair, unjust and uncalled for. He had always been willing to do his full duty, but he did not think that this additional amount of work should be expected of them without extra compensation.

The Board concurred in the resolution

should be expected of them without extra compensation.

The Board concurred in the resolution appropriating \$900 to be placed to the credit of the Committee on Elections to defray expenses caused by the Walton election law.

Similar action was taken in regard to the resolution allowing that the sum of \$2.900, which stands now to the credit of Reservoir avenue, be expended in the widening of the Boulevard from Grove avenue to Main street, and that the sum of \$1.455 be appropriated to complete the work.

The Board also concurred in the resolu-tion looking towards the completion of the reading and recodifying of the city the reading and recodifying of the city ordinances.

The same action was taken in regard to the resolution providing for a special committee of four members of the Common Council and three from the Board of Aldermen to confer with a similar committee of the city of Manchester in regard to the advisability of an annexation of the latter city, and also to consider the advisability of annexing certain portions of Henrico county.

Unon motion of Mr. Hardwicke, the resolution was taken from the table and concurred in, allowing the proper authorities to make temporary loans not to exceed \$200.

Similar action was taken in regard to the resolution providing for the payment of the salaries of the city officials and employes, to be charged to the appropriations of 1896.

COLONEL W. F. TANNER ELECTED.

COLONEL W. F. TANNER ELECTED.

Upon motion of Mr. Blake, the resignation of Mr. James T. Gray as representative of Monroe ward was taken from the table and accepted. Mr. Blake then nominated Col. William E. Tanner to fill the unexpired term of Mr. Gray. Mr. Boykin and Alderman Mitchell seconded the nomination, and Colonel Tanner was then unanimously elected.

Mr. Mann submitted a communication from a Mr. W. L. Hampton, who stated that after purchasing a house from an adjoining property cwner he had been informed that he would have to pay taxes on both pieces of property. He asked that the necessary change in the existing law be made so as to do away with this infquity. The matter was referred to the City Attorney to prepare a general ordinance for that purpose.

Mr. Turpia offered a resolution, which

was referred to the Finance Committee, asking for a reduction of the appropriation for the Fire Department, if such were practicable.

Mr. Hardwicke explained that the appropriation simply granted the amount stipulated in the city charter.

MR. J. W. WHITE RESIGNS. President Turpin then presented the resignation of Mr. J. W. White as a member of the Board from Monroe ward, which, on motion of Mr. Mann, was laid upon the table.

Messrs. Turpin and Boykin, who expressed their regret over the action of Mr. White, intimated that it was brought about by the existing State law, which prevents city officials and members of the Council to sell goods or do work in their private business for any municipal department.

Petter and B liew. If we go to the Theatre to see one of Alexandre Dumas' comedies, we should always know what to expect. "Francillon" at the Academy of Music last evening is a play which is apt to make most men smile and most women look at them askance. Dramatically, the

thing was admirable, in spite of its suggestiveness, and although it is a production that will not be discussed, we cannot deny its true artistic value. Mrs. Potter, though suffering from a severe cold, made salient her ability. The cuts of her eyes and the gestures of her heat age ladened with effect. Mr. Beliew and the rest of the company did well.

At the matinee this afterfoon "Camille" will be presented, and the engagement closes to-night with "Charlotte Corday."
